PURPOSE

To effectively monitor risks associated with potential or renewal financial awards made with federal pass-through funds to sub recipients. The focus is to ensure that potential programs would be able to meet and renewal programs meet the following requirements: adhere to the City of Colquitt/Southwest Georgia Workforce Development Board (WDB)'s guidelines and agreements, remain within budget, carry out the scope of services, and insure that proper internal controls are in place.

BACKGROUND

Pursuant to regulations found in 2 C.F.R. § 200.331, the LWDA is required to complete a risk assessment for each potential subrecipient and on each renewal subrecipient of pass-through federal funds. For renewals, this risk assessment is completed annually and is included in each executed subaward.

For potential and renewal subrecipients, this risk assessment will be completed prior to the execution of any subrecipient agreements or awards and may impact the required monitoring and documentation that must be provided to the LWDA on a regular basis. Additional conditions, based on risk level, may include an increase in onsite monitoring visits, more frequent financial and programmatic reporting, additional documentation to support the reimbursement of costs incurred in the implementation of the sub-award, and other conditions as prescribed by the LWDA.

LOCAL POLICY

Pre-Award Finance/Program Risk Assessment for Procurement/Solicitation or Potential New Contract(s)

Purpose. To effectively monitor risks associated with potential financial awards made with federal pass-through funds to subrecipients. The focus is to ensure that potential programs would be able to meet the following requirements: adhere to the City of Colquitt/Southwest

Georgia Workforce Development Board (WDB)'s guidelines and agreements, remain within budget, carry out the scope of services, and insure that proper internal controls are in place.

The attached Excel document, 'WorkSource Southwest Georgia Pre-Award Finance/Program Risk Assessment', will be used during the procurement process for all potential new contract(s).

The decision to award new applicants from an open competitive RFP, RFQ or other soliciting means will take into consideration the pre-award risk assessment tool. While this does not mean that this will be the only means of determining recipients of awards, it will play a role in the final decision. All final decisions will be communicated to applicants in the form of an informative letter.

Contract Renewal Finance/Program Risk Assessment

Purpose. To effectively monitor risks associated with financial awards made with federal pass-through funds to subrecipients. The focus is to ensure that renewal programs meet the following requirements: adhere to the City of Colquitt/Southwest Georgia Workforce Development Board (WDB)'s guidelines and agreements, remain within budget, carry out the scope of services, and insure that proper internal controls are in place.

Procedure. Based on an evaluation of the awardee's award application, internal controls and past history with grant awards, WorkSource Staff shall rate each category on the renewal risk assessment tool. Scores will then be added to determine if the level of risk is high, medium, or low.

The decision to renew existing contracts for an additional year, or more, will take into consideration the renewal risk assessment tool. While this does not mean that this will be the only means of determining recipients of awards, it will play a role in the final decision. All final decisions will be communicated to potential renewals in the form of an informative letter.

**WORKSOURCE SOUTHWEST GEORGIA
CONTRACT RENEWAL FINANCE/PROGRAM RISK ASSESSMENT TOOL**

Purpose. To effectively monitor risks associated with financial awards made with federal pass-through funds to subrecipients. The focus is to ensure that renewal programs meet the following requirements: adhere to the City of Colquitt/Southwest Georgia Workforce Development Board (WDB)’s guidelines and agreements, remain within budget, carry out the scope of services, and insure that proper internal controls are in place.

Procedure. Based on an evaluation of the awardee’s award application, internal controls and past history with grant awards, WorkSource Staff shall rate each category below. Scores will then be added to determine if the level of risk is high, medium or low.

Risk Assessment. The risk score determines the order in which staff will evaluate the grant program and/or perform a site visit.

- A score of 48-63 requires **intensive follow-up** and improvement based on a thorough evaluation of the grant project and execution of the approved corrective action plan;
- A score of 33-47 requires evaluating areas that **need improvement** and improving those areas based on the approved corrective action plan;
- A score of 12-32 or less generally identifies that the program is at **lower** risk for potential waste, mismanagement, non-compliance or fraud.

The decision to renew existing contracts for an additional year, or more, will take into consideration the renewal risk assessment tool. While this does not mean that this will be the only means of determining recipients of awards, it will play a role in the final decision. All final decisions will be communicated to potential renewals in the form of an informative letter.
